HILLS 

## BRENTWOOD HILLS

Evoking the upscale neighborhood nestled in the hills of California, Brentwood Hills Collection adds a mood of affluence accustomed to this region. European White Oak 7 1/2 inch planks undergo a sophisticated dual hand process which emphasizes a striking grain pattern accentuating each plank's natural character. Showcase your space with bold wide planks, varying in lengths of up to an astonishing 72 inches long.

## DEEP RICH

## TONE COLORS

Selected styles are thermal treated to achieve the deep rich color visuals. Wood is a natural product and each plank will react differently to this process resulting in color variations. This kind of variation helps display the true wood characters and is one of the most desired attributes in hardwood flooring.

## DIFFERENCES

### You Can See & Feel

A subtle artistic touch has been added to enhance the inherent wood patterns. Every plank comes together to bring you a floor that looks naturally stylish.

9 coats of Treffert High Performance Urethane Finish have been applied to each plank to protect all this beauty. This durable finish effectively protects your floor and will make it look and feel like new, even after many years of use.

## DUAL Hand Process

Every plank has been processed not once but twice by the hands of our skilled Craftsmen. Along with the thermal treatment process you get a floor that has a range of colors instead of one that is monotone. These colors are so vibrant they will bring life to any room regardless of where the floor is installed. Each style is labeled with one of the ratings below to help you select the perfect flooring that fits you design style.

# BRENTWOOD HILLS

Images and actual hardwood floor samples are intended as visual guides and not as the exact representation of the hardwood floors. Wood is a natural material containing distinctive differences in color, texture and grain. Knots & mineral streaks may not be present on every plank. Furthermore, sheen or gloss level and the overall appearance of the floor may look different when viewed at various angles and lighting conditions. Before you install any flooring product, we recommend that you rack out a box or two to verify that the product you have ordered is within the acceptable color range and fits your design style. Color variation ratings serve only as guides. Color and grade of all natural products must be inspected and approved by the consumer prior to installation. Any flooring installed will be considered acceptable and no claims will be valid based on visible appearance after installation.
