EUROPEAN OAK

European Oak engineered hardwood flooring is prized for its natural beauty, distinct grain patterns, and natural tones that suit various design styles. This wood offers both aesthetic appeal and long-lasting durability. The top layer of genuine oak is bonded to a multi-layer plywood core, making it resistant to warping or swelling.

Available in a variety of finishes, European Oak engineered flooring allows for customization in appearance and durability. It offers versatile design options, from rustic to modern, enhancing the atmosphere of any room.

GREEN COMMITMENT

We're committed to sustainability through eco-friendly practices, responsibly sourced materials, and low emissions. This ensures high-quality, sustainable flooring that benefits both homes and the environment.

LEED® CREDITS

IEQ Credit 4.1: (1 Point) Low-Emitting Materials - Adhesives & Sealant

IEQ Credit 4.4: (1 Point) Low-Emitting Materials - Composite Wood & Agrifiber Product
